THE DRAGONFLY SOCIETY OF THE AMERICAS

Business address: c/o T. Donnelly, 2091 Partridge Lane, Binghamton NY 13903

EXECUTIVE COUNCIL 1999-2001

President	M. May	Cranbury NJ
President Elect	D. Paulson	Seattle WA
Past President	K. Tennessen	Florence AL
Past President	G.L. Harp	Jonesboro AR
Past President	T.W. Donnelly	Binghamton NY
Past President	C. Cook	Center KY
Vice President, SIO Affairs	M. Westfall, Jr.	Gainesville FL
Vice President, Canada	R. Cannings	Victoria, British Columbia
Vice President, Latin America	R. Novelo G.	Jalapa, Veracruz
Secretary	S. Dunkle	Plano TX
Treasurer	J. Daigle	Tallahassee FL
Regular member	R. Beckemeyer	Wichita KA
Regular member	J. Abbott	Denton TX
Regular member	S. Valley	Albany OR

JOURNALS PUBLISHED BY THE SOCIETY

ARGIA, the quarterly news journal of the **DSA**, is devoted to non-technical papers and news items relating to nearly every aspect of the study of Odonata and the people who are interested in them. The editor especially welcomes reports of studies in progress, news of forthcoming meetings, commentaries on species, habitat conservation, noteworthy occurrences, personal news items, accounts of meetings and collecting trips, and reviews of technical and non-technical publications. Articles for publication in **ARGIA** should preferably be submitted as hard copy and (if over 500 words) also on floppy disk (3.5" or 5.25"). The editor prefers MS DOS based files, preferably written in WORD, WORD for WINDOWS, WordPerfect, or WordStar. Macintosh WORD disks can be handled. All files should be submitted **unformatted and without paragraph indents**. Each submission should be accompanied by a text (=ASCII) file. Other languages should be submitted only as text (=ASCII) files. Line drawings are acceptable as illustrations.

T. Donnelly (address below) is the interim editor of **ARGIA**.

BULLETIN OF AMERICAN ODONATOLOGY is devoted to studies of Odonata of the New World. This journal considers a wide range of topics for publication, including faunal synopses, behavioral studies, ecological studies, etc. The **BAO** publishes taxonomic studies but will not consider the publication of new names at any taxonomic level. Enquiries and submission of manuscripts should be made to **BAO** editor T. Donnelly, 2091 Partridge Lane, Binghamton NY 13903. Final submissions (after review) should be made on floppy disk, as above, with illustrations in final form and preferably adjusted to final size.

MEMBERSHIP IN THE DRAGONFLY SOCIETY OF THE AMERICAS

Membership in the **DSA** is open to any person in any country. Dues for individuals in the US, Canada, or Latin America are \$15 for regular membership and \$20 for contributing membership, payable annually on or before 1 March of membership year. Dues for members in the Old World are \$20. **ARGIA** is mailed Air Mail outside of the US and Mexico, and First Class in those countries.

The **BULLETIN OF AMERICAN ODONATOLOGY** is available by a separate subscription at \$15 for members and \$18.75 for non-members and institutions.

DISTRIBUTION OF NORTH AMERICAN ODONATA. PART III: CALOPTERYGIDAE, LESTIDAE, COENAGRIONIDAE, PROTONEURIDAE, PLATYSTICTIDAE¹

Thomas W. Donnelly, 2091 Partridge Lane, Binghamton NY 13903

ABSTRACT: Dot-map presentations show the distributions for species of five families of Zygoptera in North America. Additional comments, including subspecies information, are provided for several species.

INTRODUCTION: Nearly a decade ago I announced (Donnelly, 1994) the dot-map project, which was conceived to show the distribution of North American Odonata at the county level. The Anisoptera have been published as numbers I and II of this series (Donnelly, 2004a, 2004b). Two additional maps are included at the end of the present map series: the map for *Gomphus parvidens* was omitted from Part I and the map for *Brachymesia furcata* lacked considerable data in Part II.

SUBSPECIES, AND SPECIES OF SPECIAL INTEREST:

Lestes disjunctus and *australis*

These were discussed by Donnelly (2003). The maps for *disjunctus* and *australis* show either specimens examined during this compilation or records whose attribution is highly probable. A area contains records of "*disjunctus*" that could be attributed to either species. These records are shown on a separate map.

Lestes stultus

Recent unpublished discussions reveal that several workers consider *stultus* to be a color form of *dryas*. The range of *stultus* is shown as an inset box in the *Lestes dryas* range map.

Amphiagrion abbreviatum and *saucium*

As discussed in Donnelly (2001), these species are problematical. The ranges of typical *abbreviatum* and *saucium* are shown delineated by gray bands. The forms found in the center part of the continent are either intermediates within a single species (reducing *abbreviatum* as a western subspecies of *saucium*) or represent a still unresolved taxonomic problem.

Argia carlcooki

The lone US record is a photo (Behrstock et al, 2004). In view of the similarity of morphological similarity of *carlcooki* and *plana*, the problem of resolving this taxon photographically is not resolved.

Argia fumipennis

The subspecies as defined by Gloyd (1968) are delineated with gray lines.

Argia plana

The approximate boundary between blue and purple forms is shown as a gray band.

Enallagma cyathigerum

In a large portion of the eastern range of this species (shown as a gray patch) the majority of specimens collected are morphologically intermediate with *vernale*, as discussed by Donnelly (2001).

Enallagma traviatum

The approximate boundary between the subspecies *traviatum* and *westfalli*, as defined by Donnelly (1973) are shown by a gray line.

Ischnura damula

A record for Crawford Co. MO is considered a stray and is not included here. According to Tim Vogt (pers. comm.) the locality is a pond which has been the subject of aquatic studies, in one of which a larva might have been introduced.

Nehalennia pallidula

A record for Galveston Co. TX (Flint 2000) is based on two females taken in 1918. The famous 1900 hurricane which devastated this community came across the Gulf of Mexico from southern Florida and might have brought with it the progenitors of a short-lived Texas population.

¹Bulletin of American Odonatology 8(2-3): 33-99

Protoneura cara

A record from Harris Co. TX (Bob Honig, pers. comm.) is the only US record distant from the Hill Country of central Texas. The specimen was found in an aquatic garden, and possibly resulted from the accidental introduction of a larva.

**CALOPTERYGIDAE: *Calopteryx maculata*, *aequabilis*, *amata*, *angustipennis*, *dimidiata*
Hetaerina americana, *titia*, *vulnerata***

LESTIDAE 1. *Archilestes grandis*, *californicus*; *Lestes disjunctus*, *australis*

**LESTIDAE 2: *Lestes unguiculatus*,
congener, *rectangularis*, *eurinus*,
forcipatus, *inaequalis***

COENAGRIONIDAE 1: *Amphiagrion abbreviatum*, *saucium*; *Acanthagrion quadratum* *Apanisagrion lais*; *Argia agrioides*, *apicalis*, *alberta*, *barretti*, *carlcooki*

COENAGRIONIDAE 2: *Argia fumipennis*, *cuprea*, *extranea*, *bipunctulata*, *emma*, *immunda*, *hinei*

COENAGRIONIDAE 3: *Argia moesta*, *nahuana*, *lugens*, *plana*, *leonorae*, *lacrimans*, *munda*

COENAGRIONIDAE 4: *Argia sedula*, *tibialis*, *translata*, *vivida*, *oenea*, *pallens*, *pima*, *rhoadsi*

**COENAGRIONIDAE 5: *Argia sabino*,
tarascana, *tezpi*; *Chromagrion conditum*,
Coenagrion angulatum, *interrogatum*,
*resolutum***

COENAGRIONIDAE 6: *Argia tezpi*, *tonto*; *Chrysobasis lucifer*; *Enallagma anna*, *antennatum*, *aspersum*, *basidens*, *coecum*, *concisum*

COENAGRIONIDAE 7: *Enallagma boreale*, *cyathigerum*

COENAGRIONIDAE 8: *Enallagma carunculatum*, *civile*, *dubium*, *recurvatum*, *laterale*, *minusculum*, *davis*

COENAGRIONIDAE 9: *Enallagma clausum*, *divagans*, *geminatum*, *novaehispaniae*, *semicirculare*, *sulcatum*, *pollutum*, *pictum*

COENAGRIONIDAE 10: *Enallagma traviatum*, *pallidum*, *daeckii*, *exsulans*, *weewa*, *doubledayi*

COENAGRIONIDAE 11: Enallagma hageni, ebrium, vernale

**COENAGRIONIDAE 12: *Enallagma signatum*, *vesperum*, *durum*, *praevarum*;
Hesperagrion heterodoxum; *Ischnura barberi***

COENAGRIONIDAE 13: *Ischnura cervula*, *damula*, *demorsa*, *denticollis*; *erratica*, *gemina*

COENAGRIONIDAE 14: *Ischnura perparva*, *posita*, *verticalis*

COENAGRIONIDAE 15: *Ischnura ramburii*, *kellicotti*, *prognata*, *hastata*

**COENAGRIONIDAE 16: *Nehalennia gracilis*, *integracollis*, *irene*, *minuta*, *pallidula*
*Neoerythromma cultellatum***

COENAGRIONIDAE 17: *Telebasis byersi*, *salva*; *Zoniagrion exclamationis*

PROTONEURIDAE: *Neoneura aaroni*, *amelia*; *Protoneura cara*

PLATYSTICTIDAE: *Palaemnema domina*

also- *Gomphus parvidens* (omitted previously); *Brachymesia furcata* (corrected)

ACKNOWLEDGEMENTS

For a project of this magnitude it is necessarily impossible to acknowledge properly the manifold contributions from the community of odonatists. The data-gathering process spanned a decade, during which data-recording and data-transmission techniques evolved rapidly, and many of the earlier data transmissions were clumsy by contemporary standards. Many of the individuals listed below began their own data sets for specific states / provinces, and today the number of such sets is growing rapidly. I have not referenced web-site URLs and have made only limited use of them in this exercise, but their proliferation signals a change in the ways in which data will be recorded and stored in the future.

Large, more or less complete (prototypical), state / province data sets were received (in alphabetic order) from John Abbott, Roy Beckemeyer, Virginia Brown, Paul-Michael Brunelle, Kathy Biggs, Tim Cashatt, Paul Catling, Carl Cook, Duncan Cuyler, George Harp, Blair Nikula, Mark O'Brien, Richard Orr, Dennis Paulson, Steve Roble, Clark Shiffer, William Smith, Don Sutherland, Ken Tennessen, Linden Trial, and Hal White.

Jerrell Daigle, Sid Dunkle, Steve Krotzer, and Bill Mauffray supplied large data series from multiple states / provinces.

Data sets of various sizes were also received from Robert Andrie, Jim Bangma, Bob Barber, Allen Barlow, Doug Bassett, Giff Beaton, Paul Bedell, Dave Blades, Skip Blanchard, Mike Blust, Omar Bocanegra, Dan Bogar, Jason Bried, Rob Cannings, Cheryl Chacon, Steve Collins, Bob Cruden, Dave Czaplak, Bob Dubois, Oliver Flint, Karen Frolich, Rosser Garrison, Matt Holder, John Hudson, Marjorie Hughes, Steve Hummel, Pam Hunt, Ann Johnson, Jim Johnson, Colin Jones, Rex Kenner, Tom Langschie, Robert Larsen, Greg Lasley, Ellis Lauder milk, Dave McShaffrey, Paul Novak, Dave Nunnallee, Brian Pfeiffer, Paul Pratt, Andrew Rehn, Martha Reinhardt, Larry Rosche, Fred Saint Ours, Joshua Stuart Rose, Tom Schultz, Fred Sibley, Joe Smentowski, George Smolka, Ken Soltesz, Wayne Steffens, Mike Thomas, Stuart Tingley, Sandy Upson, Steve Valley, Tim Vogt, Dave Wagner, Jane Walker, Minter Westfall, Wade Worthen, and Jennifer Wykle.

Bibliographic data sets were received from George Bick and Rosser Garrison; these were incorporated in my data base and are included in the attached bibliography / cross reference. Paul Brunelle kindly furnished the latitude and longitude information for the large Québec data set of Pilon and Lagacé (1998).

Other contributors not listed here may have been omitted because of multiple receipt of the same data; because I mistakenly included their individual contribution in an attribution to another contributor of group data; because their contributions were soon published and are included here as published references; or because of some other blunder on my part. I, and the entire Odonata community, am extremely grateful for the hours of work that went into these contributions and for the warm and vigorous response to my initial request a decade ago.

INTRODUCTION TO STATE DATA SOURCES

For each state a recent published state account, if available, is given, and for each Canadian province reference not so treated, reference is made to the three volumes by Walker and Corbet.

"Unpublished data" refers to data furnished to me by the persons noted. In a great many cases the same data, or equivalent records, were furnished by more than one person. I have noted in each case the *first* data source that I referenced; some donors may not find their initials under the appropriate state. Some museum collections are also noted. In some cases, collections incidental to DSA or GLOM meetings have been so recorded. The attribution of received data is regrettably not completely systematic!

"Other references" refer to the enumerated items in the bibliography. Note that many of the data included in the published list was first received by me as unpublished data, thus creating some redundancy. Some recently published data sets which were previously available to me as unpublished material are not included here.

SV: Steve Valley
SW: Steve Walter
TD: T. Donnelly
TL: Tom Langschied
TS: Tom Schultz
TV: Tim Vogt
UMMZ: Univ. Michigan Mus. Zoology
UNR: Univ. of Nevada, Reno
USNM: U.S. National Museum
WDA: WDA meeting 1999
WM: William Mauffray
WSm: William Smith
WSt: Wayne Steffens
WW: Wade Worthen

INTRODUCTION TO BIBLIOGRAPHY

The following references were selected from a larger file of North American Odonata references for their specific distributional information. These are references that will be of value for compilation of detailed distributional information. References in which states or provinces only were listed are omitted from this file.

This file is not complete, nor have I seen every reference in this file. The details of volume, number, pagination, etc., are queried for a few of these references. Some are from the regularly published literature, many are theses or dissertations whose availability will vary. Some

are unpublished reports submitted to agencies of one sort or another. A very few are simply unpublished, including some which may appear on the Web. I have not included URLs, as I find that many of these are evanescent at best. The use of a search engine will turn up many more lists, but the reader is cautioned that some of the information on the web is not reliable. (nor, indeed, is some of the published information!)

The numbers for each reference refer to the numbers given in the state data lists. Parentheses after each reference give the states and provinces, using the conventional postal codes. The reference "GEN" means that the work is of a general nature of broad geographic coverage. The term "*" means that geographic information is not available to me, or that many states / provinces are included.

BULLETIN OF AMERICAN ODONATOLOGY

VOLUME 5

- THE DRAGONFLIES AND DAMSELFLIES (ODONATA) OF LOUISIANA, Bill Mauffray 5(1): 1-26
- ODONATA OF THE CAYMAN ISLANDS: A REVIEW, R. R. Askew, Richard Prosser, and Philip S. Corbet 5(2): 27-32
- TAXONOMIC AND POPULATION STUDIES OF BRITISH COLUMBIA *AESHNA* SPECIES, G. Peters 5(2): 33-42
- ADAPTING THE TOWNES MALAISE TRAP FOR COLLECTING LIVE ODONATA, Robert C. Glotzhober & Dan Riggs, 5(3): 43-48
- ARCHILESTES GRANDIS* (GREAT SPREADWING) IN CENTRAL NEW JERSEY, WITH NOTES ON WATER QUALITY, David P. Moskowitz and David M. Bell, 5(3): 49-54
- VARIATION IN HEAD SPINES IN FEMALE *OPHIOGOMPHUS*, WITH A POSSIBLE EXAMPLE OF REPRODUCTIVE CHARACTER DISPLACEMENT (ANISOPTERA: GOMPHIDAE), Dennis R. Paulson, 5(3): 55-58
- THE ODONATA FAUNA OF CONNECTICUT, David L. Wagner and Michael C. Thomas, 5(4): 59-85

VOLUME 6

- THE DISTRIBUTION OF THE ODONATA OF HAWAII, Jerrell J. Daigle, 6(1): 1 - 5
- ADDITIONS TO THE DESCRIPTION OF *GOMPHOMACROMIA NODISTICTA* RIS, 1928 (ANISOPTERA: CORDULIIDAE), N. von Ellenrieder, 6(1): 7-11
- THE ODONATA OF IOWA, Robert W. Cruden and O. J. Gode, Jr., 6(2)p. 13-48
- ODONATA IN THE GREAT PLAINS STATES: PATTERNS OF DISTRIBUTION AND DIVERSITY, Roy J. Beckemeyer, 6(3) p. 49-99
- COMMENTS ON THE *ERYTHRODIPLAX CONNATA* (BURMEISTER, 1839) GROUP, WITH THE ELEVATION OF *E. FUSCA* (RAMBUR, 1842), *E. MINUSCULA* (RAMBUR, 1842), AND *E. BASIFUSCA* (CALVERT, 1895) TO FULL SPECIES (ANISOPTERA: LIBELLULIDAE), Dennis Paulson, 6(4) p. 101-110

VOLUME 7

- THE ODONATA OF THE HURON MOUNTAINS, MARQUETTE CO., MICHIGAN, Mark F. O'Brien, Ethan Bright and Michael A. Kielb, 7(1): 1-22
- REVISION OF THE ORDER ODONATA IN CUBA, Adrián Trapero Quintana and Carlos Naranjo López p. 23 - 40
- AT-RISK ODONATA OF CONTERMINOUS UNITED STATES, George H. Bick 7(3):41 - 56
- DESCRIPTION OF THE LAST LARVAL INSTAR OF *ISCHNURA FLUVIATILIS SELYS* (COENAGRIONIDAE), Natalia von Ellenrieder and Javier Muzón, 7(3): 57-60
- DISTRIBUTION OF NORTH AMERICAN ODONATA. PART I: AESHNIDAE, PETALURIDAE, GOMPHIDAE, CORDULEGASTRIDAE, Thomas W. Donnelly, 7(4): 61-90

VOLUME 8

- DISTRIBUTION OF NORTH AMERICAN ODONATA. PART II: MACROMIIDAE, CORDULIIDAE, AND LIBELLULIDAE, Thomas W. Donnelly, 8(1): 1-32
- DISTRIBUTION OF NORTH AMERICAN ODONATA. PART III: CALOPTERYGIDAE, LESTIDAE, COENAGRIONIDAE, PROTONEURIDAE, PLATYSTICTIDAE, Thomas W. Donnelly, 8(2-3): 33-99

BULLETIN OF AMERICAN ODONATOLOGY

VOLUME 1

THE ODONATA OF NEW YORK, Thomas W. Donnelly 1(1): 1-27

DISTRIBUTION OF DRAGONFLIES AND DAMSELFLIES (ODONATA) IN FLORIDA, Sidney W. Dunkle 1(2): 29-50

MORPHOLOGICAL AND ECOLOGICAL DIFFERENCES AMONG SPECIES OF *LADONA* (ANISOPTERA: LIBELLULIDAE), Michael L. May 1(3): 51-56

COMPORTAMIENTO REPRODUCTIVO Y POLICROMATISMO EN *ISCHNURA DENTICOLLIS* Burmeister (Zygoptera: Coenagrionidae), [Reproductive behavior and polychromatism in *Ischnura denticollis*], with English summary Alejandro Córdoba Aguilar. 1(3): 57-64

A CHECKLIST OF THE ODONATA OF THE DOMINICAN REPUBLIC BY PROVINCE, Jerrell James Daigle 1(4):65-69

ODONATA DE LA SIERRA DE HUAUCHINANGO, PUEBLA, MEXICO [Odonata of the Sierra de Huachinango, Puebla, Mexico], José A. Gómez Anaya y Rodolfo Novelo Gutiérrez 1(4):71-73

VOLUME 2

LA NAYADE DE *ARCHILESTES LATIALATUS* DONNELLY, 1981 (ZYGOPTERA: LESTIDAE) [The naiad of *Archilestes latialatus* Donnelly, 1981], R. Novelo-Gutiérrez 2(1): 1-7

DESCRIPCIÓN E HISTORIA NATURAL DE LAS LARVAS DE ODONATOS DE COSTA RICA. I II: *GYNACANTHA TIBIATA* (KARSCH 1891) (ANISOPTERA, AESHNIDAE) [Description and Natural History of of the Odonata Larvae of Costa Rica. III: *Gynacantha tibiata* (Karsch 1891)(Anisoptera: Aeshnidae)], Alonso Ramírez 2(1): 9-14

DESCRIPTION OF THE NYMPH OF *EPITHECA (TETRAGONEURIA) SPINOSA* (HAGEN) (ODONATA:CORDULIIDAE), K. J. Tennessen 2(2): 15-19

THE LARVA AND ADULT MALE OF *SOMATOCHLORA GEORGIANA* WALKER (ODONATA: CORDULIIDAE), Jerrell J. Daigle 2(2): 21-26

MACROMIA ILLINOIENSIS AND *GEORGINA*: A STUDY OF THEIR VARIATION AND APPARENT SUBSPECIFIC RELATIONSHIP (ODONATA: CORDULIIDAE), Thomas W. Donnelly and Kenneth J. Tennessen 2(3): 27-61

THE SUBGENUS *TETRAGONEURIA* (ANISOPTERA: CORDULIIDAE: *EPITHECA*) IN NEW JERSEY, Michael L. May 2(4): 63-74

VOLUME 3

THE ODONATA OF OHIO - A PRELIMINARY REPORT, Robert C. Glotzhober 3(1): 1 - 30

FOUR DECADES OF STABILITY AND CHANGE IN THE ODONATA POPULATIONS AT TEN ACRE POND IN CENTRAL PENNSYLVANIA, Clark N. Shiffer and Harold B. White 3(2): 31 - 41

DESCRIPCION E HISTORIA NATURAL DE LAS LARVAS DE ODONATOS DE COSTA RICA. IV: *MECISTOGASTER ORNATA* (RAMBUR, 1842) (ZYGOPTERA, PSEUDOSTIGMATIDAE).[Description and Natural History of Odonata larva of Costa Rica. IV. *Mecistogaster ornata* (Rambur, 1842) (Zygoptera, Pseudostigmatidae)], Alonso Ramírez 3(2): 43-47

THE DISTRIBUTION OF ODONATA IN ALABAMA, Kenneth J. Tennessen, James D. Harper, R. Stephen Krotzer, 3(3): 49-74

DISTRIBUTION RECORDS OF THE ODONATA OF MONTANA, Kelly B. Miller and Daniel L. Gustafson, 3(4): 75 - 88
continued on inside cover

VOLUME 4

AN ANNOTATED LIST OF THE ODONATA OF NEW JERSEY
With an Appendix on Nomenclature in the Genus *Gomphus*, Michael L. May & Frank L. Carle 4(1): 1 - 35

THE ODONATA OF PATUXENT WILDLIFE RESEARCH CENTER AND VICINITY, Richard L. Orr 4(2): 37 - 67

THE STATUS OF *LESTES APOLLINARIS* NAVÁS AND *L. HENSHAWI* CALVERT, Thomas W. Donnelly 4(3): 69-74

THE DRAGONFLIES OF WASHINGTON, Dennis R. Paulson 4(4): 75-90
